## SUMMARY

I am a tech enthusiast passionate about software development, cybersecurity, and emerging technologies. I work on web and mobile applications, explore blockchain integration, and continuously enhance my skills through hands-on projects. Eager to learn new technologies and take on challenging problems, I actively engage in coding, problem-solving, and staying updated with industry trends to grow as a technology professional.

## PROJECTS

### Travel Website

Oct 2023

- Created a platform for users to search, explore, and book travel destinations.
- Implemented filtering and sorting options for personalized travel recommendations.
- Designed an interactive user interface for an intuitive booking experience.
- Integrated a review and rating system for user feedback and engagement.

### DevHire – Developer Booking Platform

Dec 2024

- Developed a platform for clients to search, view, and book developers based on availability.
  - Integrated MetaMask authentication for secure and decentralized transactions.
  - Implemented real-time booking management with instant status updates.
  - Enabled profile management, allowing developers to update skills, experience, and availability.
- 

## WORK EXPERIENCE

### CosmoFeed X Superprofile | Quality Assurance Intern

May 2024 - June 2024

- Designed and executed test cases to validate application functionality, performance, and usability.
  - Conducted manual testing, identifying defects, edge cases, and inconsistencies in web and mobile applications.
  - Developed and maintained test scripts to streamline testing processes and ensure comprehensive coverage.
  - Performed regression testing, cross-browser testing, and UI/UX validation for a seamless user experience.
  - Collaborated with developers to refine test strategies and enhance product stability.
- 

## EDUCATION

### Bachelor in Computer Application

July 2023 - May 2026

Christ (Deemed to be university)

---

## ADDITIONAL INFORMATION

**Programming Languages:** Html, Css, JavaScript, Java,

**Libraries/Frameworks:** Angular.js, Reactjs, Node.js, Express.js, Tailwind, Bootstrap

**Tools /Platforms:** Visual studio, Vs Code, , Android studio

**Databases:** Xampp Php, Mysql, MongoDB
